

Environmental Assessment (EA) - I-94/I-69 Corridor:

- An EA analyzes the potential impacts of a project and provides sufficient analysis of alternatives and any impacts of those alternatives.
- Will address roadway improvements including I-94/I-69 ramps to and from the existing plaza, the Black River Bridge, the Water Street Interchange, and a new MDOT welcome center.
- The EA will include a separate series of public meetings.
- Current EA release date is late Spring 2007.
